

Recognizing Early Adopters in ICH Data Collection

In early February 2023, The American Heart Association added a new Intracranial Hemorrhage focus to the Get With The Guidelines® - Stroke program. This added layer of data and insight provides an expanded focus on addressing and improving ICH patient care within individual hospitals and across the industry.

Thank you to the 309 early adopters who enrolled in the ICH layer within the first week after launch. For more information on enrollment, visit heart.org/hemorrhagic or contact your American Heart Association Quality Consultant today.
